BOY SCOUTS ORGANIZED.

Vermont Y. M. C. A. Through Its Field Secretary Taking Up New Schemes.

Burlington, Sept. 19.—Vermont is soon to experiment with the boy scout scheme, which has proved so successful in England and Canada, under the direction of Gen. Baden-Powell and others. Byron N. Clark of this city, field secretary of the Vermont Y. M. C. A., has been appointed scout master for Vermont and has already arranged to form the first patrol at Bennington, followed by others, as may be advisable. He will work in conjunction with churches and schools and hopes to have the cooperation of all interested in the development of manhood in the state.

ANOTHER GOOD ROADS TOUR.

Caledonia County Follows Example Set by Franklin.

St. Johnsbury, Sept. 19.—Caledonia county is to have a good roads tour, similar to that recently carried out by Franklin county men. At a meeting of the executive committee of the Commercial club held Saturday evening, a committee was named to fix the date and arrange the details. The party will include the representatives and senators-elect from the county, state highway commissioner Gates of Franklin, county commissioner Thompson, the selectmen of St. Johnsbury and Lieut.-Gov.-elect L. P. Slack.

Daniel Colwell, aged 20 years, met with a serious accident Wednesday between Pownal Center and Bennington, when he fell from a load of gravel, the front wheels passing over his chest and the rear wheels over his abdomen. His seat was insecurely fastened and the shifting of the gravel pushed it off the front of the wagon. It is feared that his injuries will prove fatal, as he was badly crushed, one lung being nearly destroyed. His back was also injured.

The barn at the Charles Fletcher place in Spofford, near the outlet to Spofford lake, were burned during a recent thunder shower and the house was badly damaged. The fire was started by lightning, which struck one of the barns. The horses and cows were removed, but farming tools and the hay crop were destroyed. Most of the furniture was removed from the house.

Highest Woolen Standards

You've probably heard a lot of talk about "all-wool garments."

Yet, if you took a suit whose makers claim pre-eminence on this ground, and compared it with an Adler-Rochester suit at the same price, you would find—if you knew woollens—that the Adler-Rochester garment is 12 1-2 per cent better value.

Price for price with other clothes, this percentage endures throughout the entire Adler-Rochester line. And added value is represented in the rare style, fit and finish of these famous clothes.

Master designers and skilled craftsmen combine their best efforts in every garment irrespective of its price.

ADLER-ROCHESTER CLOTHES

The shades and patterns of the Adler-Rochester materials are always the most favored of fashion.

The Adler-Rochester style and fit has ever been irreproachable—and unapproached save in the most expensive custom-made clothes.

This should mean something to you. Our fall stock of Adler-Rochester Clothes proves every statement.
